Career Objective

Passionate and detail-oriented Junior Full-Stack Web Developer with expertise in building scalable web applications using JavaScript, TypeScript, React, Next.js, and Node.js. Dedicated to developing efficient backend APIs, responsive frontends, and optimizing user experiences in dynamic software development environments. Seeking an opportunity to leverage technical skills and modern web standards to deliver impactful solutions.

Skills

- **Frontend:** JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Context API
- **Backend:** Node.js, Express.js, RESTful APIs, Next.js, Authentication (Better Auth / JWT)
- **Databases & Tools:** MongoDB, Git, GitHub, VS Code, Vercel, Postman
- **Interpersonal Skills:** Problem-Solving, Team Collaboration, Adaptability, Time Management, Critical Thinking

PROJECT EXPERIENCE

BookNook – Full-Stack Online Library Management System

A full-stack web application that enables users to browse, manage, borrow, and return books.

Technologies: Next.js, React, Tailwind CSS, Node.js, Express.js, MongoDB, Better Auth

- Implemented secure user authentication and protected routes.
- Developed book listing, adding, updating, and deleting functionality.
- Built book borrowing and returning features.
- Managed book availability and prevented duplicate borrowing.
